# Background information

# About the Capstone

- Time: Dec 2023 – Feb 2024
- Goals:
  - Study the languages used in the core feature labels of Vietnam's top consumer banking apps.
  - Identify UX Writing considerations for later stages.
- Questions
  - Do we need English to launch alongside Vietnamese for the app in Vietnam?
  - What issues might we encounter if we directly use our current core information architecture labels (in English) to launch in Vietnam?

02

---

# Bank ranking research

# Top banks in Vietnam

- Two different types of ranking:
  - Vietnam commercial bank
    - Ranking banks in general
  - Private joint-stock bank
    - Only ranking private banks
- Main criteria
  - Financial capability
  - Media reputation
  - Survey results

# Terminology research

# Terminology research findings

- Some labels from GoTyme Bank might be reusable in Vietnam.
- Vietnamese apps:
  - “Topup / Top up / Top-up” instead of “Buy load”
  - “Accounts” instead of “My account”
- According to the research...

GoTyme	ACB	VPBank	Techcombank	Vietcombank	VIB
My account	Accounts ⇒ only regular accounts	Account ⇒ Only regular accounts, but Minh mentions that it might be because she doesn't use any savings or insurance.	Accounts / Current Account ⇒ "Current Account" only has regular account   "Accounts and Cards" actually also include "Save & Invest", "Loan", and "Protect".	CURRENT ACCOUNT ⇒ "Account" includes Save and Invest	Current account ⇒ "Account" includes savings, but "Current account" only includes regular account.
Deposit	No equivalence	No equivalence	No equivalence	No equivalence	No equivalence
Send / Transfer	Transfer	Transfer	Transfer (header label, not button label)	Transfer (header label, not button label), but there are different kinds of transfer for entry points	Transfer
Scan QR	QR Code	[QR icon only]	Scan QR	Scan QR code	Scan QR code
Debit card	Cards	Cards	Only see Credit card, but maybe depending on individual's settings	Debit card	Card (They also use Debit card, though very short)
In-store deposit	No equivalence	No equivalence	No equivalence	No equivalence	No equivalence
Withdraw	No equivalence	No equivalence	Cardless Withdrawal ⇒ Quite different	No exact equivalence, more like specific kinds of withdraw ⇒ but just transferring from saving accounts to regular accounts	No equivalence
Pay bills	"Payment", not "Pay bills"	Pay bills	<b>Bills and Top-up</b>	Bill payment (header label, not button label)	Payment
Buy load	No equivalence	No equivalence	<b>Bills and Top-up</b>	Top up/Topup	Topup (not exact same but similar)

- There is a high chance to have both Vietnamese and English on GoTyme Bank's app.
